

Accessing the Bishops network from home

You can access the network from home via your Windows PC or Mac computer as if you were onsite at bishops. We recommend, and by default now use a HTML5 Web client. This allows for easy access though a browser.

Step 1

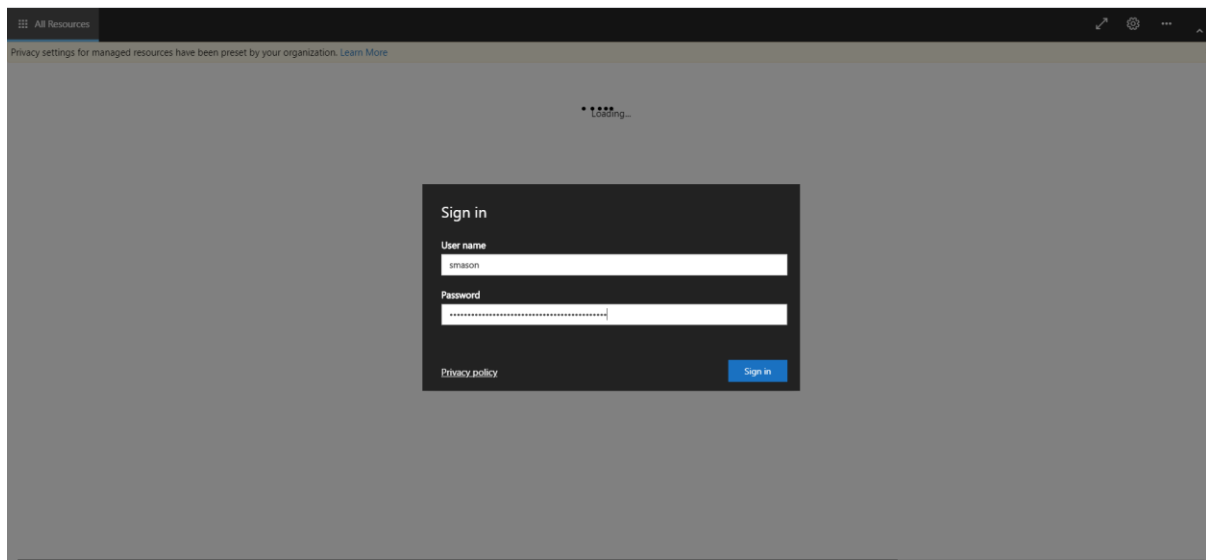

Go to <https://remote.bhbs.hereford.sch.uk> or click our padlock item on our website at www.bhbs.hereford.sch.uk

Click on "Login to Our Network"

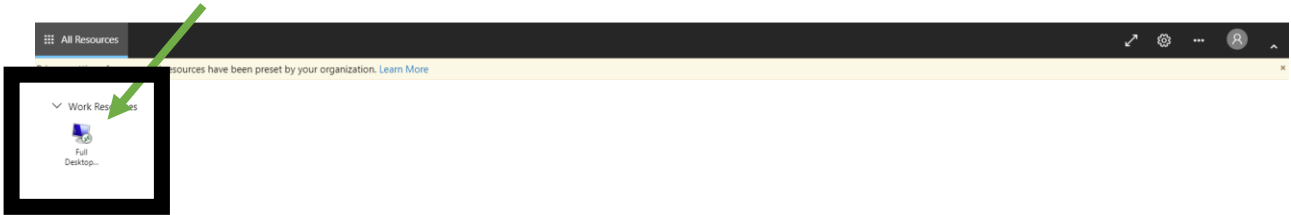

Step 2

Enter your username and password. This method **no** longer requires you include the domain "Bishops"

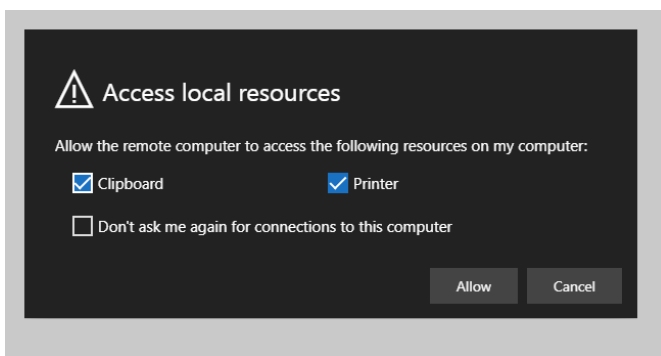

Step 3

Click on "Full Desktop..."

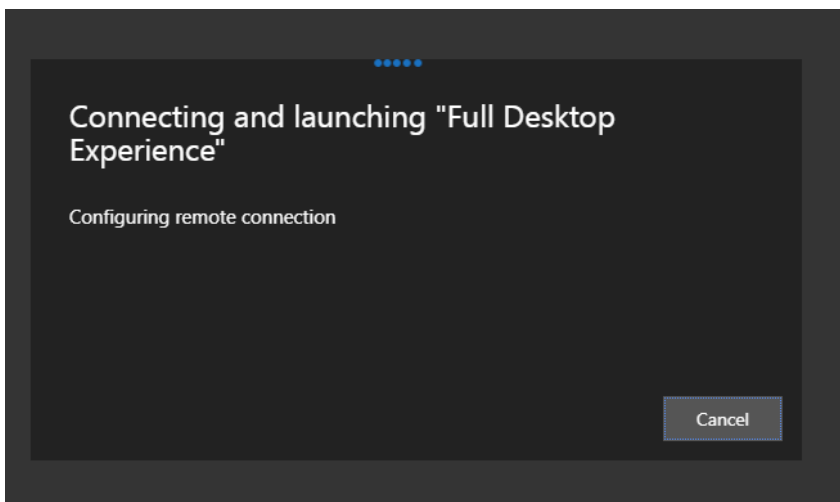

Step 4

Click on Allow

Finish

You should now have a full desktop as if you were at Bishops.

If Everything went to plan, you should now be able to work on files on the bishop's network. If you need further assistance, please contact the ICT Service team
